Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Story of the English Down to the colonial period, if not to the Revolutionary War, English history concerns American children just as much as it does their brothers and sisters who speak the same language on the other side of the broad Atlantic. It is therefore very important that our boys and girls should as soon as possible become familiar with its salient events. To interest them in their own race, introduce them to their mother country, and make the past as vivid as possible, characters, customs, and places have in this book been depicted principally through anecdotes, many of which have become classical, although not all are admitted into works intended for more mature minds.
