They travel to all parts of the globe and communicate with each other for business, politics, social, academic and private purpose. Trade, ideas, knowledge, and technology flow from place to place, and a common language is essential to maintaining and improving the stream of communication (Nwaila 1997). All these trends have sparked great interest of second language learning all over the world. It seems that in this era, the mastery of a second language especially English as a Second Language, which is regarded as an international language in common use, is extraordinarily necessary. Based on this reality, many researches, aiming at finding the most efficient and effective way of learning English, have been conducted. Bilingualism has always been a hot topic in teaching English as a foreign language (EFL) and English as a second language (ESL) because bilinguals are present in every country of the world, in every social class and in all age groups. 16 pp. Englisch.
