Even so, many writers are stymied in getting their books published, never mind gaining significant attention for their ideas—and substantial sales. This is the book editors have been recommending to would-be authors. Filled with trade secrets, Thinking Like Your Editor explains: * why every proposal should ask and answer five key questions; * how to tailor academic writing to a general reader, without losing ideas or dumbing down your work; * how to write a proposal that editors cannot ignore; * why the most important chapter is your introduction; * why "simple structure, complex ideas" is the mantra for creating serious nonfiction; * why smart nonfiction editors regularly reject great writing but find new arguments irresistible.
