

Early Akron s Industrial Valley: A History of the Cascade Locks (Paperback)

By Jack Gieck

Kent State University Press, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book. In this study of Akron s Cascade Locks, canal historian Jack Gieck examines the story of this remarkable lock system, including a look at early-nineteenth-century entrepreneurs who exploited the precipitous terrain to found one of the first industrial centers in the American Midwest. A steep staircase of sixteen locks was required to raise canal boats 149 feet in a single mile in order to reach the Akron Summit - the highest point on the 309-mile-long Ohio Erie Canal. But what was considered by some to be an impossible feat of engineering represented a commercial opportunity for others, beginning with Dr. Eliakim Crosby, who built a two-mile millrace from a dam on the Little Cuyahoga River at Middlebury to his Stone Mill at Lock 5 on the canal. After turning Crosby s millstones, the water became the Cascade Race, flowing down the steep slope parallel to the canal, giving rise to more than a dozen industries, including several iron furnaces, a foundry, a woolen mill, a furniture factory, a distillery, several grist mills, and two rubber plants - all of them turned by waterpower. And...
