The problem arises when we flush chemical, man-made antibiotics into our bodies to try and get rid of infections and other problematic issues our bodies face. If we don't take care of ourselves and take a lot of preventative measures, we have to resort to high-functioning chemicals that not only kill the bad bacteria in our bodies, but also the good bacteria that helps us to stay healthy. Fortunately, nature has always offered us solutions to these very vast and unfortunate problems. Solutions that, fortunately, are often right under our noses. When it comes to thriving against illness, look no further than your own backyard. Nature has a way of knowing what we need, and generally we are never faced with problems that have no...
