From the beginning of the first chapter: THE ENGLISH ESSAY - A Study in Literary Development FOR the last hundred years the essay has rivaled even the novel in the breadth of its appeal and in the variety of the interests it represents. Critics, it is true, ordinarily place its golden age in the past; and they are right in so doing if they judge either by the urbane grace of the periodical essayists or by the profound humanity of a Bacon and a Montaigne. But the essay holds its place to-day far less by virtue of the excellence of any single writer or the distinction of any school than because it has, in the years since the French Revolution, become in a deeper sense than ever before the abstract and brief chronicle of its time. Created in the closing years of the Renaissance by thoughtful observers of life and soon pressed into the service of an ever-widening circle of readers, it became, with the diffusion of knowledge and the increase of curiosity in the nineteenth century, a vehicle of...
