CHEESE AND CHEESE-MAKING CHAPTER I THE PRINCIPLES OF CHEESE-MAKING PROFESSOR HENRY, of the Wisconsin Agricultural College, recently stated that the loss of the American cheese trade with Great Britain was owing to the fact that his countrymen did not make the best article, and that in many cases imitation cheese, was produced for the sake of a possible temporary profit, but to the ultimate loss of all concerned. Whatever may be the immediate gain effected by the addition of foreign fat to milk, or by the removal of a portion of the cream it contains, the permanent value of the cheese industry to the producer is maintained only by the manufacture of the best, and of its production in the largest possible quantity. To obtain both quantity and quality
