Oxford University Press, United Kingdom, 1999. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. ISSUES IN BIOMEDICAL ETHICS General Editors: John Harris, University of Manchester; S(ren Holm, University of Copenhagen. Consulting Editor: Ranaan Gillon, Director, Imperial College Health Service, London. North American Consulting Editor: Bonnie Steinbock, Professor of Philosophy, SUNY, Albany. The late twentieth century has witnessed dramatic technological developments in biomedical science and the delivery of health care, and these developments have brought with them important social changes. All too often ethical analysis has lagged behind these changes. The purpose of this series is to provide lively, up-to-date, and authoritative studies for the increasingly large and diverse readership concerned with issues in biomedical ethics-not just health care trainees and professionals, but also social scientists, philosophers, lawyers, social workers, and legislators. The series will feature both single-author and multi-author books, short and accessible enough to be widely read, each of them focused on an issue of outstanding current importance and interest. Philosophers, doctors, and lawyers from several countries already feature among the contributors to the series. It promises to become the leading channel for the best original work in this burgeoning field. this book...
