Reviews

An exceptional pdf as well as the typeface utilized was interesting to see. I am quite late in start reading this one, but better then never. I am very happy to explain how this is actually the best pdf i actually have go through within my individual daily life and might be he greatest publication for possibly.

THE NERVOUS SYSTEM OF VERTEBRATES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Nervous System of Vertebrates The attempt has been made in the following pages to give an account of the nervous system as a whole, to trace its phylogenetic history and to show the factors which have determined the course of evolution. This has been made possible by recent studies directed toward the analysis of the nervous system on the basis of function. The functional point of view, which is the chief characteristic of the present book, brings the treatment of the nervous system into close relation with the work of recent years on the behavior of animals. The study of behavior aims to give an account of the actions of animals in relation to the environment. The study of the nervous system aims to describe the mechanism by which actions are directed and adapted to the conditions of life. A text-book of comparative neurology at the present time must meet the needs of workers of all grades, students, investigators and instructors. Its descriptions should be intelligible to students who have had one year of work in zoology or medicine, including the anatomy and embryology of some vertebrate. On the other hand there should be included all facts which are important for the functional and phylogenetic mode of treatment. How far these difficult conditions have been met only the use of the book can show. Little space is given to mere descriptive anatomy and some descriptive matter which is well presented in the text-books of zoology, anatomy and histology in common use, is omitted. This accounts for the brief treatment of the eye, ear and other sense organs, the distribution of the spinal nerves, etc....
