

Go Figure!: Big Questions about Numbers

By Johnny Ball

DK Publishing (Dorling Kindersley), United States, 2016. Paperback. Book Condition: New. Revised. 277 x 216 mm. Language: English . Brand New Book. Numbers create the structure to our universe. Without numbers, computers would not work and cars would not go. There would be no way to quantify things. You wouldn't be able to ask How many? or How much? We would not understand time or distance. Sports records wouldn't matter! Go Figure! is a math book filled with the weird and wonderful side of math and numbers. Discover why there are 60 minutes in an hour, why daisies have to have 34, 55, or 89 petals, and why finding a prime number could make you a millionaire. Go Figure! is also packed with activities that children can try out on their own or with friends, including brainteasers, magic tricks, and things to make, while also learning about the simple puzzles that stumped the world's brainiest mathematicians for centuries. Go Figure! is a fun and quirky look at the magical world of numbers, without the effort of a math textbook.

Reviews

Most of these ebook is the best publication available. It is definitely simplistic but unexpected situations within the 50 percent of the book. You will not sense monotony at any moment of the time (that's what catalogs are for relating to in the event you request me).

-- **King Wunsch**

It is one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
