Createspace, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. THE SERIES The 10 volumes in this series record a fifty year history of neuropsychopharmacology related by 213 pioneer clinical, academic, industrial and basic scientists in videotaped interviews, conducted by 66 colleagues between 1994 and 2008. These volumes include a preface by the series editor placing its contents in an historical context and linking each volume to the next. Each volume is dedicated to a former President of the ACNP and edited by a distinguished historian or Fellow of the College who provides an introduction to its themes and a biography of each scientist s career. The series provides insights into a half century of discovery and innovation with its rewards and disappointments, progress and setbacks, including future expectations and hopes for the field as a whole and the ACNP as an organization. IN THIS VOLUME In Volume 1, 22 pioneers reflect on their contributions to the Starting Up of neuropsychopharmacology in the 1950s, using behavioral methodology to detect differences in the pharmacological profile of newly introduced psychotropic drugs. In Volume 2, Neurophysiology, the emphasis shifts to the detection of the action...
