The mobile user seeks for facilitation of his daily habits and companies anticipate generating high revenue stream through new mobile applications. After telecommunication companies have paid high prices for the UMTS licenses in Europe M-Commerce has started to be the new hype. In those countries which did not have auctions but beauty contests M-Commerce has been also shifted into the spotlight. Although M-Commerce is still in its infancy, it predicts to have a huge impact on many ways of people's lives. New buzz words like anywhere and anytime have evolved in order to describe the great potential of M-Commerce. Growth opportunities in terms of new arising mobile business models seem promising but only the future will be able to answer the question of success. Mobile devices offer a broad range of opportunities from entertainment service e.g. music, games or video up to transactions e.g. banking, shopping, auctions. It is still unclear if all the emerging opportunities can be commercialized successfully. Nevertheless, many scenarios of how the world could be like in the future have been made. Below an excerpt of the daily routine of a future mobile user is presented: Nancy D`Amato prepares to leave her office just before five o'clock. She uses her mobile phone for a quick check of the local weather forecast, sees that fine conditions are expected for the evening, and decides to leave her umbrella by her desk. Nancy is due to meet her boyfriend...
