Fertigation Through Low
Cost Drip System In Newly
Planted Pomegranate
A water and fertilizers saving technology for fruit
crops

LAP Lambert Academic Publishing Aug 2012, 2012. Taschenbuch. Condition: Neu. Neuware - Pomegranate (*Punica granatum L.*) is one of the favorite table fruit of tropical, subtropical, arid and semi-arid regions. Irrigation and fertilizers are the most important inputs which directly affect the plant growth, development, yield and quality of produce. Application of irrigation water and fertilizers through drip are the most effective ways of supplying water and nutrients to the plant roots. In newly planted pomegranate under high density planting system,...

Reviews

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.
