When Dr Terry Hannan and his wife, Mary, took a 4-month academic sabbatical tenure in Chile in 2015, their lives were enriched and simultaneously challenged in so many ways. A Slice of Chile chronicles their fascinating adventures and sabbatical sojourn. They fulfilled an innate long-term desire to experience the grandeur of the Andes Mountains, got caught up (and somehow survived) an earthquake (terremoto - which was 8.4 on the Richter Scale) and fell in love with the Aladdin s cave of geological beauty and human social evolution they discovered on the South American continent. Furthermore, their first-hand experience of the effects of climate change in the grandeur of the San Rafael glacier - a virginal environment far away from industry and significant tourist masses - is both thought-provoking and fascinating. Their personal experiences also extended beyond Chile, and took them to Sao Palo in Brazil and Buenos Aries in Argentina; with both locations complimenting the rich social, cultural and academic experiences within the Chilean society - something neither the author nor his wife had anticipated. The purpose of this eclectic, colourful, entertaining and highly compelling book is not only to share their incredible journey to Chile and beyond, but also to wholeheartedly inspire and encourage anyone who is offered the opportunity to discover this beautiful part of the world for themselves.
