Brand New Book ***** Print on Demand *****.Self-Watering Garden: 10 DIY Self-Watering Garden Systems To Keep Your Plants Fresh Despite The Weather There is little more satisfying than planting flowers or vegetables and watching them grow as you nurture and care for them. Unfortunately, most people suffer from hectic lifestyles and the serenity of the garden is often broken by the need to answer the phone or deal with a pressing work or family issue. It is for this reason that many budding gardeners forget to water their plants. The same can even be said of professional gardeners; no one is immune to a little oversight! The answer, whether your time is limited, you forget easily or you simply prefer the peace of mind; is to create your own self - watering garden system. Although it is possible to purchase self-watering systems they generally come with an impressive price tag and may only deal with part of the issue you have in your garden. Different areas of your garden will need differing amounts of water; this is much easier to achieve if you create several self-watering systems. In...
