## Air Quality Observation Systems in the United States

By Committee on Environment Natural Resourc

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In June 2013, President Obama released his Climate Action Plan. The Plan calls for a range of activities to help mitigate the impacts of carbon pollution, prepare for and adapt to those impacts that cannot be avoided, and enhance international efforts to reduce the harmful global effects of climate change. Success in each of the Plan s three components will require access to and application of the highest quality atmospheric science. Fortunately, as a result of decades of attention to the issue of air quality generally - from ozone and carbon dioxide to soot and other particulates - the United States is in good position to address the added observational and modeling challenges posed by climate change. Federal agencies and state and local partners invest hundreds of millions of dollars annually to maintain and operate the Nation s ground- and space-based air quality observation networks, and to conduct short-term field studies relating to air quality. The data collected by these activities have been indispensable to the effective development and implementation of policies to protect public health and the...
