Huxley: His Life and Work (Classic Reprint)

By Gerald Leighton

Forgotten Books. Paperback. Condition: New. This item is printed on demand. Dimensions: 9.0in. x 6.0in. x 0.2in. Excerpt from Huxley: His Life and Work The great French philosopher, M. Henri Bergson, in his recent Huxley Lecture at Birmingham University (May 29, 1911) asked: What scientific question, what philosophic problem, is there which did not interest Huxley's luminous intellect - one of the broadest and most comprehensive that nineteenth-century England produced, fertile in great intellects as it was? That being so, it can be well understood that no one volume could deal with all the varied aspects of his strenuous and crowded life. Here there is no such attempt. In these few pages the effort has been to show as clear a portrait as possible, to show the man as distinct from his contemporaries, and to indicate his place in the gallery of great British minds. Reviews

A very great pdf with lucid and perfect explanations. It really is really interesting through reading time period. You won't really feel monotony at any moment of your own time (that's what catalogs are for about in the event you question me).
