Damon Lathe and his blackcollar combat team were sent to capture five hidden Nova-class warships from under the Ryqril conquerors snouts. Against all odds they had succeeded, sharing their prize with the Terran Democratic Empires erstwhile Chrysellis allies, who were themselves the current focus of Ryqril aggression. Lathe had followed that by successfully entering Earths last mountain war-era fortress and found a small resistance movements final project: a drug called Whiplash, which could break the supposedly unbreakable Ryqril loyalty-conditioning. Now they face their most serious challenge. On one of the conquered human colony worlds is a Ryqril tactical center through which flows an entire sectors worth of military data. If the blackcollars can find a way inside, it could tip the balance in the current Ryqril-Chrysellis war. It could even start humanity on the path back to ultimate freedom. But the Ryqril arent sitting idly by. Under threat of reprisals against his world, Prefect Jamus Galway of Plinry is already on the case. His plan: to turn the blackcollars and their combat skill into unknowing tools of the Ryqril. His hidden ace: a clone duplicate of Lathes ally Allan Caine, ready to be slipped into Lathes inner circle. It will be the blackcollars most important mission. It may also be their last.
