At present, information literacy has gradually become an important standard to measure the quality of talent. Information Literacy in cultivation can not be separated from the basic theories of knowledge and literacy training, information, awareness of culture and information ability. Among them, the information capacity, including information acquisition, processing, organization and management, analysis and evaluation, innovative thinking and communication skills. Has a direct role in the sense of information on the ability of information. Source of information, the information carriers put forward higher requirements for changes in the way of access to information and development of teachers and academic level. Editor in accordance with the basic requirements issued by the Ministry of Education, the literature search teaching, combined with years of experience in teaching practice, complete the information resources (literature) retrieval and use. The universities of the 21st century is the common (optional) teaching materials: information resources (literature) to retrieve and use both for text and science professional characteristics and the actual situation of the University Library collection, designed for the students of institutions of higher learning to write materials. Retrieval of information resources (literature) and is a very practical course, in addition to teach students the basic theoretical knowledge related to information retrieval, and greater emphasis on access to information, screening, comprehensive utilization of the ability to explain, including integrated use of deep-level information of foreign well-known all kinds of database resources, 21st century institutions of higher learning to (optional) teaching materials: information resources (literature) retrieval and use of content is divided into three parts: the first chapter, a brief introduction of information resources to retrieve the basic knowledge and general...
