This is no ordinary coloring book. The coloring book is meant to teach kids about weather. With the importance of STEM (Science, Technology, Engineering, Mathematics) in education, the coloring book highlights words used in weather science. The coloring book provides a weather word for every word of the alphabet. In addition, a related illustration to color and an explanation of the word makes the learning experience fun. This coloring book introduces four animated humanoid children, weatheregg kids, to add to the teaching of kids about weather. Holley Humidity is full of rain. She loves to rain, and that is why her head is shaped like a raindrop, and she is the color of a raindrop Peggy Pressure is a moody girl. She likes to lower the air pressure which causes storms. When she raises her amulet and calls on Air Pressure, LOOK OUT! Tommy Temperature raises and lowers temperature. He always tries to do his best, and his cape helps him be a hero. Wesley Wind can be a mischief-maker. He will blow a nice cool breeze to cool you on a sunny day, or he will be part of a Hurricane. He finds it humorous to change the wind.
