

Who You Gonna Call? Responding to a Medical Emergency with the Strategic National Stockpile

By National Defense University

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 10.8in. x 8.4in. x 0.1in. Prior to the terrorist attacks of September 11, 2001 and the subsequent anthrax attacks, the Strategic National Stockpile (SNS), known as the National Pharmaceutical Stockpile until March 2003, was an important component of the national medical response to a crisis, but one that had not yet been tested in a real emergency. That changed in the fall of 2001. Since the terrorist attacks against the World Trade Center buildings and the Pentagon, and the later anthrax episodes, the cost of the SNS has grown from a roughly 50 million asset to one worth more than 600 million. The SNS is designed to supplement state and local public health agencies in the event of a biological or chemical terrorism incident anywhere and at any time in the United States or its territories. Federal authorities do not consider the stockpile a first response tool. Rather, its purpose is to bolster the response of a state or city government to a biological or chemical attack or other medical emergency that requires additional resources. The SNS is managed jointly by the Departments of Homeland Security...
