CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 64 pages. Dimensions: 9.0in. x 6.0in. x 0.1in. Are you the curious one who wants to know everything that happens on the dark web? It's human nature to want to find out more about something if it appears to be mysterious. The whole concept of the Dark net is sure to be exciting as hell, but anyone who wants to access this part of the Internet needs to be extra careful. It's the age of the Internet and almost everyone tends to get their sense of validation only if they are seen online. Some of us can't let a day go by without logging onto social media sites such as Facebook, MySpace or Twitter. Due to online transactions, buying and selling of products have also been made easy. The Internet has become a place that can offer you almost everything you need. However, what it can't provide all the time is privacy. Not a lot of us are really concerned about our privacy on the Internet, but there are some who are extremely concerned about not wanting to disclose their real identities on the Internet. Why do they seem so worried you ask? It's because anonymity on the Internet is a topic of extreme concern. There are a lot of NSA, FBI and third party hackers who can monitor every activity of yours online. When you realize how risky it is to surf the web without having your identity protected, it can overwhelm you. But don't worry. We have you covered! If you are eager to know what exactly the dark web is and how it can help us protect our privacy, you will benefit from this book. Inside we disclose a vast amount of information, which will be...
