

Case Study: Dod Response to Operation Tomodachi and the Fukushima Nuclear Scare

Filesize: 4.85 MB

Reviews

This publication could be worth a read through, and far better than other. This is certainly for all those who statte there was not a worth reading through. You may like just how the author compose this publication.
(Dr. Kayley Kovacek PhD)

CASE STUDY: DOD RESPONSE TO OPERATION TOMODACHI AND THE FUKUSHIMA NUCLEAR SCARE

BiblioScholar. Paperback. Condition: New. 32 pages. Dimensions: 9.4in. x 7.2in. x 0.2in. On March 11, 2011 the largest earthquake in Japanese history, measuring 9.0 on the Richter scale, occurred off the coast of Sanriku in the Tohoku region of Japan. The quake triggered a massive tsunami which just moments later overwhelmed settlements and caused catastrophic damage to coastal prefectures. The sheer and absolute destruction of homes, businesses, public services, medical care facilities and basic infrastructure altered the point of reference from which previous crisis response had been based. The fallout specifically compromised the Tokyo Power Company's Fukushima Daiichi Nuclear Power Station reactors which served as a game changer or facilitator of precedent for Japanese crisis response and most specifically the relationship it maintains with its now most strategic ally -- the United States. At 3:30 PM, just 44 minutes after the earthquake hit, the Ministry of Defense established an Emergency Headquarters in order to initiate basic response operations. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
