## 2000 Census: Significant Increase in Cost Per Housing Unit Compared to 1990 Census: Gao-02-31

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The estimated 6.5 billion full-cycle cost of the 2000 decennial census is nearly double that of the 1990 census. When the full-cycle cost is divided by the number of American households, the cost per housing unit of the 2000 census was 56 compared to 32 per housing unit for the 1990 census. The primary reasons for the cost increases include the following: (1) in the 1990 census, field data collection cost was 16 per housing unit, while in the 2000 census it was 32 per housing unit; (2) in the 1990 census, technology costs were 5 per housing unit compared to 8 per housing unit for the 2000 census; and (3) the data content and products activity cost 3 per housing unit in 1990 and 5 per housing unit in 2000. This item ships from La Vergne, TN. Paperback.

### Reviews

*It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book I have got read through during my individual life and might be the finest publication for ever.*

-- Prof. Murl Shanahan DDS

*Complete guideline for publication fans. I am quite late in starting reading this one, but better than never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Llewellyn Terry
