MCAD - ECAD INTEGRATION

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Constraint Modeling and Propagation | Mechatronic systems encompass a wide range of disciplines and hence the development process for mechatronic system is collaborative in nature. Currently the collaborative development of mechatronic systems is inefficient because contemporary design environments do not allow sufficient information flow of design data across different engineering domains. Mechatronic systems need to be designed in an integrated fashion allowing designers from multiple engineering domains to receive updates regarding design modifications...
