PLANETARY CLIMATES (PAPERBACK)

Princeton University Press, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book. This concise, sophisticated introduction to planetary climates explains the global physical and chemical processes that determine climate on any planet or major planetary satellite--from Mercury to Neptune and even large moons such as Saturn s Titan. Although the climates of other worlds are extremely diverse, the chemical and physical processes that shape their dynamics are the same. As this book makes clear, the better we...
