Createspace Independent Publishing Platform, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. If you want to learn more about Raspberry Pi, this is the book for you! Boasting more than just the basics, this book will walk you through everything from setting up the Pi to building a smart TV. McCarthy begins by introducing the reader to OpenCV, which is the computer vision library used for the projects he describes throughout the book. He then outlines in detail how to program video cameras, how to create a GPS designated photo camera, and even link your Raspberry Pi to your Google Home to bring automation to your smart house. In this book you ll work through a series of projects that outline basic Raspberry Pi programming. The projects in this book include: How to create a face detection app Creating a print server that is network accessible How to create a weather app Building your own Smart TV More! Perhaps just as important as the projects themselves, McCarthy s book guides the reader on what he or she should already know before starting any of the projects. His prerequisites section explains how a basic understanding of Raspberry Pi is important to executing his projects, and provides resources for the Raspberry Pi programmer-to-be. But this book doesn t just stop with prerequisites! It also includes a Chapter 0 for very beginners. This chapter takes a step-by-step approach to setting up the Raspberry Pi, connecting devices, and more. Once you set up your Raspberry Pi you ll be off and running! This book explores achievable, functional projects that you can create with your Raspberry Pi, and introduces you to the endless possibilities of Raspberry Pi programming. Whether you re new to the world of Raspberry Pi...
