Reviews

Absolutely among the best publication I have got at any time go through. It really is written in straightforward phrases rather than hard to understand. Its been designed in an extremely straightforward way which is just soon after i finished reading this publication through which basically modified me, alter the way i believe.

(Mrs. Velda Tremblay)

ULTIMA DESPEDIDA DE LA MARISCALA A SUS HIJOS

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 56 pages. Original publisher: Stanford, Calif. : Edward L. Ginzton Laboratory, W. W. Hansen Laboratories of Physics, Stanford University ; Washington, D. C. : National Aeronautics and Space Administration, 1990 OCLC Number: (OCoLC)62199677 Excerpt: . . . lasersandpotassiumdihydrogenphosphate 2 haveyieldedthevalued36 (KDP) 0. 39 pm V, which has become accepted in the application of high-power harmonic conversion for fusion research 3 . Earlier cw measurements of 633-to 316-nm harmonic generation in ammonium dihydrogen phosphate gave a value of $d_{36}(\text{ADP}) = 0.57 \text{ pm V}^{-1}$, 5 . Combining this with relative measurements between KDP and ADP yields $d_{36}(\text{KDP}) = 0.41 \text{ pm V}^{-1}$ 6 . We measured $d_{36}(\text{KDP}) = 0.38 \text{ pm V}^{-1}$ in good agreement with both earlier harmonic measurements. Values for $d_{36}(\text{KDP})$ determined by the technique of parametric fluorescence 7 , 8 tend to be higher. Previously the value for 1.06 μm to 532 nm harmonic generation in lithium iodate $d_{31}(\text{LiIO}_3) = 7.1 \text{ pm V}^{-1}$ based on parametric fluorescence has been accepted as standard 9 . (No attempt was made to measure signs of the nonlinear coefficients, however when the signs are known 6 they are included.) On the parametric fluorescence LiIO_3 scale, the coefficient for potassium dihydrogen phosphate is $d_{36}(\text{KDP}) = 0.63 \text{ pm V}^{-1}$ for second harmonic generation pumped by 1.06 μm radiation 7 . Clearly there is a discrepancy in the accepted values for nonlinear optical coefficients. The crystals included in the measurements reported here are KDP, LiIO_3 , BaB_2O_7 , potassium deuterium phosphate (KDP), potassium titanyl phosphate (KTP), and magnesium oxide doped lithium...
